SHAKER HILL ROAD BRIDGE IN ENFIELD TO BE CLOSED TO TRAFFIC
DETOUR IN EFFECT WHILE BOX CULVERT REPLACEMENT IS INSTALLED

The New Hampshire Department of Transportation announces the Shaker Hill Road Bridge over the abandoned rail bed in Enfield will be closed to traffic on Wednesday, July 10, 2002. This will allow for the removal of the existing bridge and its replacement with a pre-cast concrete box culvert.

A signed detour will be used to get traffic to and from Shaker Road.

This bridge project is part of a bridge and road rehabilitation project in Enfield that also includes the replacement of two bridges over the Mascoma River.

Miller Construction of Windsor, Vermont is the general contractor for the \$3.8 million project, which has a final completion date of October 31, 2002.
